

Name \_\_\_\_\_

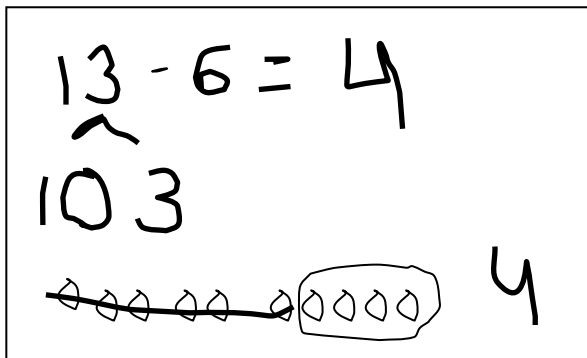

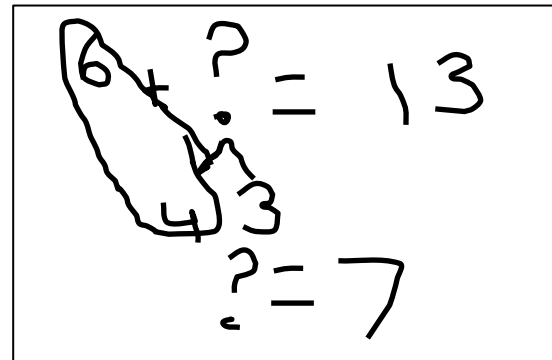

Date \_\_\_\_\_

Olivia and Jake both solved the word problems.  
Write the strategy used under their work.  
Check their work. If incorrect, solve correctly.  
If solved correctly, solve using a different strategy.

Strategies:

- Take from 10
- Make 10
- Count on
- I just knew

Mike ate 6 apples from the fruit bowl. If the fruit bowl had 13 apples, how many apples are left?

a.

b.

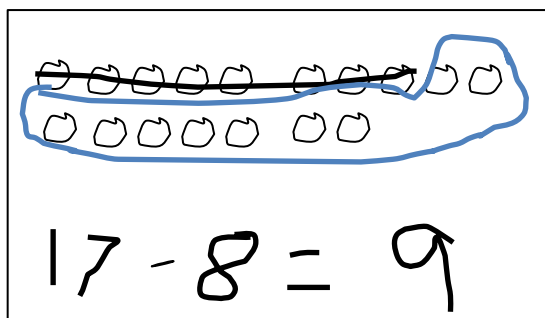

Explain why you chose to use these strategies.

a.

b.

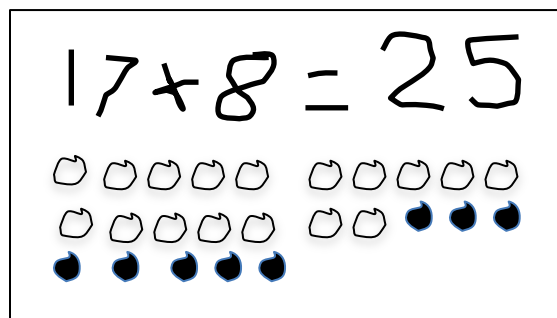

Drew has 17 baseball cards in a box. He has 8 cards with Red Sox players and the rest are Yankee players. How many Yankee player cards does Drew have in his box?

Olivia's work

$$17 - 8 = 9$$

Jake's work

$$17 + 8 = 25$$
