

Name _____

Date _____

Measure each set of lines in inches, and write the length on the line. Complete the comparison sentence.

1. Line A _____

Line B _____

Line A measured about _____ inches. Line B measured about _____ inches.

Line A is about _____ inches longer than Line B.

2. Line C _____

Line D _____

Line C measured about _____ inches. Line D measured about _____ inches.

Line C is about _____ inches shorter than Line D.

3. Solve. Check your answers with a related addition or subtraction sentence.

a. $8 \text{ inches} - 5 \text{ inches} = \underline{\hspace{2cm}}$ inches

$\underline{\hspace{2cm}}$ inches + 5 inches = 8 inches

b. 8 centimeters + _____ centimeters = 19 centimeters

c. 17 centimeters - 8 centimeters = _____ centimeters

d. _____ centimeters + 6 centimeters = 18 centimeters

e. 2 inches + _____ inches = 7 inches

f. 12 inches - _____ = 8 inches
